

ARC-PA Student Attrition TEMPLATE

| | Graduated Classes | | |
|--|-------------------|---------------|---------------|
| | Class of 2022 | Class of 2023 | Class of 2024 |
| Maximum entering class size (as approved by ARC-PA) | 54 | 54 | 54 |
| Entering class size | 54 | 54 | 54 |
| Graduates | 52 | 51 | 46 |
| * Attrition rate | 3.7% | 5.6% | 14.8% |
| **Graduation rate | 96.3% | 94.4% | 85.2% |

Comments: Starting with the Class of 2024, the QU PA Program implemented a new deceleration policy to promote long-term retention. Students have a one-time deceleration option to move to the next cohort. This policy promotes student wellness and success by allowing those who were struggling to reset with time to reflect, change study habits, gather foundational knowledge, and promote mental and physical wellness without the pressure of a fast-paced and rigorous curriculum. In addition, the program has implemented more personalized advising and success coaching for students that may need extra support.

The above table reflects attrition secondary to dismissal, withdrawal, and deceleration. For further information, please access the QU PA Program website “Mission, Vision, Core Values and Goals”; Goal 1 provides further information regarding attrition.

*Attrition rate calculation: Number of students who attritted from cohort (decelerated + withdrawals + dismissals) divided by the (entering class size + number joining class cohort).

**Graduation rate calculation: Number of cohort graduates divided by the (entering class size + number joining class cohort).
