\*Variety of backgrounds reported as male gender, coming from a medically underserved community, first-generation college student, military veterans/reservists (<sup>#</sup>Data regarding ELMPA variety backgrounds was unavailable except for gender)

The program defines student attrition as the permanent loss of a matriculated student from the course of study in a physician assistant program. For privacy reasons the program will only report average attrition rates for the last 3 cohorts (Class of 2022-2024).

| Benchmarks                           |                      |                     | $\leq 1$ student per cohort |

To promote retention, the program assigns advisors in the didactic and clinical phases of the program to promote student support and provide mentorship and guidance. The University offers student support services to promote retention including academic counseling services (Learning Commons) and mental health counselling services. In addition, the program is taking a student-centered approach with the development of a student success coaching model.

The program recognizes that some students who matriculate experience academic and personal challenges that require additional time to overcome and be successful. Therefore, the program offers a one-time deceleration opportunity to promote the long-term retention of students.

Goal 2: Engage all students in community, professional or experiential learning opportunities.

**Goal 3**: Graduate physician assistants who have the knowledge and skills for entry-level practice.
