

Quinnipiac University SOE Measure 3. Candidate Competency at Program Completion

During the COVID-19, CSDE granted candidates who completed all requirements of an in-state teacher preparation program except for licensure assessments, a Three-Year Nonrenewable Interim Certificate. For this reason, licensure exam data may be incomplete during that time period.

EdTPA

The EdTPA not only serves as an exam which our candidates must pass in order to graduate from the program and achieve certification, it also provides a baseline of SOE completers' preparedness for teaching. In almost all cases, on average our candidates scored well above the state required cut score for their content areas in 2021-2022 (Table 3.1). We also wish to highlight that although edTPA was not slated to be a CSDE requirement until 2020, EPP candidates began submitting this assessment in 2015 as part of a state-wide pilot. In the 2019 cohort, MAT candidates were required to submit edTPA, but cut scores were not required. For the 2020 cohort, edTPA was a requirement until suspended due to COVID-19. The edTPA was reinstated for the 2022 graduating cohort, and scores collected during the 2021-2022 and 2022-2023 academic years are reported in Table 3.1 (below). Though the CSDE suspended a state-wide edTPA cut score, our EPP has opted to maintain the requirement set by the original state-determined cut-scores as a requirement for candidates to be recommended for certification. Candidates whose edTPA portfolios fall short of the cut-score are assessed holistically for recommendation on a case-by-case basis.

Licensure Exam Outcomes: MAT and EDL

As noted previously, licensure exam requirements were suspended for the 2020 graduating cohort. Licensure exam data collected during the 2021-2022 and 2022-2023 Academic Years is reported below. Regardless of the state certification they ultimately seek, EPP candidates must complete the appropriate Praxis II exams. To fulfill Praxis II requirements, Elementary education candidates must complete two licensure exams including Praxis II Multiple Subjects Exam (Table 3.2) and Connecticut Foundations of Reading Test (Table 3.3). Secondary education candidates must complete a Praxis II subject knowledge competency test in the area for which certification is sought (Table 3.4). Prior to ending our Secondary Spanish certification program area in 2021-2022, Secondary Spanish candidates were required to pass both the Oral Proficiency Interview (OPI) and/or Written Proficiency Test (WPT) in order to meet State requirements (data not included). With only one exception (2021-2022 Social Studies) EPP average scores on Praxis II licensure exams are consistently above state and national averages.

In the spring semester of the 2021-2022 academic year, the EPP began working with our colleagues in the College of Arts and Sciences to review specific areas on which our Secondary History, Secondary Social Studies, and Secondary Mathematics candidates tended to struggle in their Praxis II exams. The MAT Program Director also worked closely with faculty in the Departments of Mathematics, English, and History in order to examine and refine the curriculum within 500-Level courses our candidates take in order to ensure strong content knowledge for classroom teaching and to better prepare them for their Praxis II licensure exams. We wish to highlight that while all candidates must take the Praxis II as a requirement for program completion, we cannot require passing scores from candidates who plan to seek certification in a state other than Connecticut. Among 2022 & 2023 completers, respectively, 55% and 42.6% were certified and hired to teach in a state outside Connecticut. We encourage readers to interpret the effectiveness of our EPP through our Praxis II pass rates mindful that a significant proportion of our recent cohort were not required to pass the Praxis II exam, but did so regardless.

Among EDL candidates, content knowledge is evidenced, in part, through performance on the CAT. On average, EDL candidates consistently outperform state and all test takers (Table 3.5) and 100% have passed the CAT, particularly noteworthy since the comparison made in Table CM is between EPP EDL test-takers' *first* scores and state and all-test takers' *best* scores, which may include scores resulting from second, third, etc. attempts.

State Licensing Measures: MAT and EDL Certification Rates

Completers in both the MAT and EDL programs within the EPP have consistently high certification rates, as illustrated in Table 3.6. The few MAT candidates who were not certified to teach graduate with a Master's degree from Quinnipiac University and often decide to pursue careers in areas of education outside of K-12 Classroom teaching.

Student Teaching Evaluations: MAT Form D

All MAT candidates Student Teach for a minimum of 50 days (10 weeks) and are supported and assessed through conferences and a variety of observation instruments including Student Teaching Form D (Table 3.7; 3.8). The Form D is completed by candidates' Supervisors (Table 3.7) and Cooperating Teachers (Table 3.8) during Student Teaching in the final semester and assesses candidates on each of the 10 InTasc Standards. It was implemented in its present form with our 2019 cohort. In 2020, we conducted the following correlational analyses which were submitted with our Self-Study Report (SSR):

- Student Teaching Form D: Cooperating Teacher scores and University Supervisor scores
- Student Teaching Form D scores and Educator Disposition Assessment (EDA)
- EDA and edTPA task scores by degree level (4+1 and Graduate MAT) and cohort

As described in Measure 1, when we examined relationships between Supervisor and Cooperating Teacher Form D scores, we found a strong, significant correlation between scores assigned by Supervisors and Cooperating Teachers ($r = 0.839$, $p < 0.001$) that persisted when candidates were disaggregated by 4+1 ($r = 0.766$, $p < 0.001$) and GradMAT (0.944 , $p < 0.001$) tracks and by cohort year.

Dispositions Instrument: MAT Candidates

To assess professional attributes and dispositions, as of the 2018 cohort, all MAT candidates are scored on the proprietary Educator Disposition Assessment (EDA) at two time points during their tenure in the EPP. The EDA includes 9 dispositional criteria, scored on a Likert-scale range of 1 to 3. From 2018-2020, candidates were assessed during the second semester after their first semester in the EPP by a course instructor, and during Internship (penultimate semester) by their Internship Advisor. For the 2021-2022 Academic Year, we adopted a slightly new protocol for assessing candidates on the EDA. As of 2021, candidates complete the EDA as a self-assessment during their first semester in the program (Table 3.9). They are then assessed during their penultimate semester by their Internship Advisors (Table 3.10) consistent with previous protocol. This approach not only provides candidates an opportunity to consider the dispositions considered necessary for teaching but to reflect on themselves and their progress towards developing such dispositions. In this way, the EDA not only provides a way to assesses candidates' dispositions as they progress through the program but provides candidates an opportunity to consider the dispositions considered necessary for teaching early in the program. We look forward to continuing this new approach to EDA data collection in order to examine trends across program areas, tracks, and by cohort.

Dispositions Instrument: EDL Candidates

To assess professional attributes and dispositions among our advanced candidates, as of the incoming January 2022 cohort, all EDL candidates will be scored on the proprietary EDL Disposition Assessment (EDLDA) at two time points: at the start of their first semester in the EPP (conduct a self-assessment) and during their internship (assessed by internship advisor). The EDLDA was made available for use by our EPP through a partnership with its developer, Dr. Adrienne Wilson at the University of Tampa. At this time we have successfully collected data associated with EDL cohorts entering during 2022 Spring, 2022 Summer, and 2023 Spring semesters (Table 3.11) as well as from the EDL cohort engaged in Internship during Fall 2023 (Table 3.12). Now that cohorts who completed the initial EDLDA self-assessment have entered their internships, we are able to review EDLDA trends within a cohort (Table 3.13). On average, we observed increases in scores associated with nearly all dispositional attributes, most notably Vision, Conflict Resolution, Positive Attitude, and Effective Communication. This approach to disposition assessment, provides EDL candidates an opportunity to assesses EDL candidates' dispositions across their time in the program and provides candidates an opportunity to consider the dispositions considered necessary for leadership at the start of their time in the EDL program.

Trends and External Benchmarks

We notice that in most program areas our edTPA scores (Table 3.1) are above state averages and candidates scores in History in 2022-2023 were above state averages again, whereas they had fallen slightly below in 2021-2022. The edTPA cut score was waived through August 31, 2022. As noted above, on Praxis II, EPP average scores are almost always above state and national averages for Elementary and Secondary candidates (Table 3.2-3.4) which is remarkable given nearly half of candidates are not required to meet Connecticut Praxis II score requirements for their out-of-state certification. The EPP also has very consistent certification rates year after year and comparison against external benchmarks¹ (Table 3.6) indicate Quinnipiac is above the Statewide Average and competitive with other regional SOEs. We are, at this time, unaware of external benchmarks against which to compare Student Teaching and Disposition data. However, the results presented below suggest that our MAT candidates demonstrate competency to teach effectively, as assessed by both their Supervisors and Cooperating Teachers through the Form D, as assessed by their Internship Advisors through the EDA, and as measured by Licensure exam scores and certification rates. We also feel that our SPED and EDL candidates demonstrate exceptional competence at completion as measured by 100% pass rates on CAT scores and, among EDL candidates, dispositions as assessed through the EDLDA instrument. As we continue to accumulate collected data, we will be able to examine trends across cohorts and program areas going forward.

State Licensing Measures: MAT & EDL Certification Rates

Table 3.6. Quinnipiac and Regional SOE Certification Rates by Cohort Graduation Year

Cohort Year	2023	2022	2021	2020	2019	2018	2017
Quinnipiac MAT ²	91% ³	97%	88%	96%	90%	96%	96%
Quinnipiac EDL	93%	87%	86%	100%	100%	100%	100%
Statewide				-	-	87%	90%
University of Connecticut				-	-	98%	94%
Fairfield University				-	-	100%	83%
Western Connecticut State University				-	-	93%	95%

²In the 2017 cohort, 90% of MAT completers were certified in CT in 2017 and an additional 6% were certified in 2018 or in a different state (total 96%). In the 2018 cohort, 87% were certified in CT in 2018 and an additional 9% were certified in 2019 or 2020 or in a different state (total 96%).

³In the 2023 cohort, 6% of completers took teaching positions at schools for which certification was not required and 3% opted not to take licensure exams.

Table 3.12. EDL Disposition Assessment (EDLDA) Final Assessment by Internship Advisor.

EDLDA Scores by Criterion: Internship Mentor Assessment		Fall 2022 (n=17)		Spring 2023 (n=18)		Fall 2023 (n=32)		Spring 2024 (n=)		Fall 2024 (n=)	
Disposition	Criterion	Mean	Stdev	Mean	Stdev	Mean	Stdev	Mean	Stdev	Mean	Stdev
	1. Confidence	1.88	0.33	1.83	0.38	1.94	0.25				
	2. Determination/ Perseverance (NELP 2.1)	2.00	0.00	1.89	0.32	1.97	0.18				
	3. Vision (NELP 1.1)	1.88	0.33	1.94	0.24	1.91	0.30				
	4. Driven to Learn (NELP 2.1)	2.00	0.00	1.94	0.24	2.00	0.00				
	5. Conflict Resolution (NELP 2.1, 2.2, 2.3)	1.88	0.33	1.94	0.24	1.88	0.34				
	6. Embraces Diversity and Equity (NELP 3.1, 3.3, 5.1)	2.00	0.00	2.00	0.00	1.97	0.18				
	7. Relationship Skills (NELP 2.3, 5.1, 5.2, 5.3)	2.00	0.00	1.94	0.24	1.97	0.18				
	8. High Expectations for All	1.94	0.24	1.89	0.32	1.94	0.25				
	9. Positive Attitude	1.94	0.24	1.94	0.24	2.00	0.00				
	10. Effective Communication (NELP 5.3)	2.00	0.00	1.89	0.32	1.97	0.18				
	11. Integrity NELP 2.1	1.94	0.24	1.94	0.24	1.97	0.18				
	12. Creates a Positive Culture (NELP 3.1, 7.2, 7.3)	2.00	0.00	1.94	0.24	1.94	0.25				
	13. Possesses Professional Beliefs Commitment, and Work Ethic (NELP 2.1, 7.3)	2.00	0.00	2.00	0.00	1.97	0.18				
	14. Adaptable in Working with Staff and Stakeholders (NELP 5.1, 5.2, 5.3)	1.94	0.24	1.94	0.24	1.88	0.34				
15. Self-Aware of Strengths and Weaknesses (NELP 2.1, 2.3)	2.00	0.00	1.94	0.24	1.94	0.25					

Data will be collected in Spring 2024 Data will be collected in Fall 2024

Table 3.13. EDL Disposition Assessment (EDLDA) Differences (Final minus Initial Assessment).

EDLDA Scores: Difference in means from Initial to Internship		Fall 2022 Cohort		Spr 2023 Cohort	Fall 2023 Cohort
Disposition	Criterion	Mean	Stdev	Mean	Mean
	1. Confidence			0.33	0.47
	2. Determination/ Perseverance (NELP 2.1)			0.19	0.04
	3. Vision (NELP 1.1)			0.64	0.44
	4. Driven to Learn (NELP 2.1)			-0.06	0.07
	5. Conflict Resolution (NELP 2.1, 2.2, 2.3)			0.54	0.48
	6. Embraces Diversity and Equity (NELP 3.1, 3.3, 5.1)			0.20	0.17
	7. Relationship Skills (NELP 2.3, 5.1, 5.2, 5.3)			0.24	0.24
	8. High Expectations for All			0.09	0.07
	9. Positive Attitude			0.34	0.40
	10. Effective Communication (NELP 5.3)			0.29	0.64
	11. Integrity NELP 2.1			0.14	0.10
	12. Creates a Positive Culture (NELP 3.1, 7.2, 7.3)			0.24	0.07
	13. Possesses Professional Beliefs Commitment, and Work Ethic (NELP 2.1, 7.3)			0.30	0.10
	14. Adaptable in Working with Staff and Stakeholders (NELP 5.1, 5.2, 5.3)			0.34	0.01
15. Self-Aware of Strengths and Weaknesses (NELP 2.1, 2.3)			0.14	0.14	

Differences cannot be calculated for this cohort as EDLDA was not implemented when they began in Summer 2021
